

Amanda Britto

RÉSUMÉ

Data analysis and geospatial data quality

Montréal, Québec, Canada / [LinkedIn](#) ↗

Data Analyst working on map-based queries and geospatial data quality at TELUS Digital. Brings experience teaching data science and coursework in Python, machine learning and business intelligence, including an Olist dataset project.

EXPERIENCE

Data Analyst

Mar 2026–present

TELUS Digital, self-employed

- Assess data quality for map-based queries and validate geospatial information, checking accuracy and consistency and identifying discrepancies.
- Use Web research to support the relevance and reliability of geospatial data.

IT instructor

Jan 2018–Jan 2023

Centro Universitário FMU

- Taught data collection and exploration, introductory data science and data storytelling in the MBA em Data Science programme (Aug 2019–Jun 2020).

SELECTED WORK

Olist data analysis

2019

course project

- Developed a final course project using the Olist dataset from Kaggle during the WoMakersCode data science bootcamp at Universidade São Judas Tadeu.
- Coursework in Python data analysis, machine learning and clustering, with exposure to Spark and Power BI.

SKILLS

Data Engineering, Data Science and Business Intelligence

2019, 100 hours

Universidade São Judas Tadeu

- SQL knowledge; experience described in coursework and personal practice.

CREDENTIALS

Google Cloud Data Analytics Certificate / Google Cloud

Google Cloud Computing Foundations Certificate / Google Cloud

2024

EDUCATION

Bachelor's degree (Brazilian Bacharelado) in Computer Science / Centro Universitário FMU, Brazil

2020–2024
